## PROFESSIONAL SUMMARY

---

Experienced MERN Stack Developer skilled in building dynamic, scalable web applications using MongoDB, Express.js, React.js, and Node.js. Expertise in full-stack development, from front-end design to back-end API integration and database management, delivering performance-optimized solutions. Collaborative and solutions-oriented, with a strong focus on clean, efficient code, and continuous learning to stay ahead of industry trends and technologies.

## SKILLS

---

- **Front-End:** JavaScript (ES6+), TypeScript, HTML5, CSS3, React, TailwindCSS, Responsive Design
- **Back-End:** Node.js, Express.js, JWT, REST APIs, Mongoose
- **Database:** MongoDB (NoSQL)
- **Tools & Version Control:** Git, GitHub, JIRA, Slack, ServiceNow (SNOW), Splunk
- **Methodologies:** Agile, Scrum

## WORK EXPERIENCE

---

**INFOSYS Ltd, Bangalore**

**Senior Systems Engineer**

( 06/2022 – Present )

### **Project 1: Internal Project – Developer**

- Developed and maintained full-stack web applications using Node.js, MongoDB, and React.
- Collaborated in Agile teams to deliver feature enhancements and bug fixes, improving user satisfaction by 20%.
- Integrated RESTful APIs and ensured secure access through JWT authentication.
- Possesses a comprehensive understanding of software development principles and consistently adheres to best practices, including Agile methodologies.
- Thrive in fast-paced environments, adept at quickly learning new technologies and methodologies to stay ahead of industry trends.
- Proven ability to adapt to evolving project needs and deliver innovative solutions.

### **Project 2: Walmart – On-call Support Analyst (Pre-Production Environment)**

- Acted as the primary on-call support for Walmart's pre-production environment, handling high-priority incidents from the application team.
- Performed initial triaging and investigation, gathering context, analyzing logs, and narrowing down potential root causes.
- Collaborated with multiple internal teams to coordinate and drive incident resolution, ensuring timely communication and progress.
- Escalated critical incidents via email and live calls, including direct communication with the director to provide updates and receive feedback.
- Conducted Root Cause Analysis (RCA) post-incident to document findings, identify patterns, and suggest preventive measures.

## PROJECTS

---

### **Chat-App | MERN Stack, JWT, Socket.IO**

- Built a real-time chat app with responsive UI using React and Socket.IO.
- Secured sessions using JWT-based authentication.
- Implemented MongoDB for scalable data storage.

## EDUCATION

---

**Bachelor of Engineering**

JSS Academy of Technical Education Bengaluru

August 2021
